2022
SPRING
GALLERY NIGHT™
SATURDAY, MARCH 26, 2022

www.fwada.com

MISSION STATEMENT

FWADA is a unique arts organization in a unique American place. Few cities of Fort Worth's size are privileged to command such a wealth of major art museums, and fewer still have such a vital community spirit. What truly sets Fort Worth apart, however, is the vigorous, longstanding, clearly defined cooperation between the museums, the university art galleries, the non-profit exhibition spaces, and the art dealers, all of which are full working members of FWADA.

To fulfill its stated mission to stimulate interest in the visual arts through educational programs, art scholarships, and art competitions, FWADA organizes, funds, and hosts exhibitions of noteworthy art.

FWADA sponsors the annual Fall Gallery Night and Spring Gallery Night for members and friends. FWADA also sponsors an annual show featuring submitted artworks from Member institutions, the summer Selections exhibition. Keep an eye out for our Gallery Guide! You can find our most recent issue in your FW Weekly newspaper, or pick one up at a Member gallery or museum.

All these attainments have created a stable environment that produces a steady stream of top-notch talent, including major local artists who exhibit their work nationally and internationally. Newcomers are frequently dazzled by the quality of work being created in every medium and style. Their passion reinvigorates Fort Worth patrons who have become habituated to the riches that surround them, reminding them anew that the most authentic cultural connection they can make is the one that affords direct communication with the artists who interpret and illuminate the life experience they share through common background and interests. Although the city is justly recognized for its cosmopolitan worldview, it is the local artists and their devoted collectors who are the lifeblood of the Fort Worth art market.

The members of the Fort Worth Art Dealers Association are pledged to the maintenance of a high standard of ethical conduct and professional integrity; these businesses furnish a model that gallery associations in other cities might do well to emulate. FWADA is to be commended for its important role as a contributor to the cultural and aesthetic richness of Fort Worth.

Couch Potatoes Eat Ones and Zeros, 2018

Jordan Vinyard's work is about reestablishing the virtue of the physical body. Consisting of kinetic sculptures, multi-media installations and video/performance, these pieces intentionally create physically instinctive gaps for viewers. Vinyard believes technology can be utilized to re-humanize by prompting an audience to begin asking not, "What is that thing doing?" but rather, "What am I doing that makes that thing do what it's doing?"

Regular Hours: Tues.-Fri., 11 am-4 pm

Fort Works Art is pleased to announce artist Jessica Vollrath's second solo exhibition with the gallery. This exhibition will run from March 22, 2022 - April 23, 2022, with an artist reception on Spring Gallery Night, March 26th.

Artist Jessica Vollrath is creating her current body of work referencing the changes in her life that she has experienced since becoming a mother of two and working at home through the pandemic. For the parents, grandparents, aunts, uncles, cousins, and friends out there who have all watched over little ones in the last decade, you might recognize the subject of Vollrath's new body of work as Magna tiles, the magnetic building toys used by kids to play and learn geometry. Bringing such a simple everyday object into the forefront of these paintings as the focus of her series, Vollrath endeavors to unite individuals together that might otherwise feel disconnected. This recognizable symbol of childhood play translates across the ideologies and definitions of self that we all carry. Her approach to these works playfully remind us that in small ways, we are all truly interconnected. They reference the magnetism that we will always have as human beings, even during times of isolation and loneliness, similar to what we have experienced throughout this current chapter in our history.

Works that were created during the residency will be on display in the gallery from March 26th–April 2nd. Rachael Henson is a visual artist whose practice extends between the mediums of sculpture and photography. Her work combines elements from her upbringing in a multi-racial household in the suburbs of Dallas, with an interest in transience, and the uncanny. From edible images that have taste profiles that are meant to elicit feelings, to jarring durian skins that are warm to the touch, Henson's work incorporates mold making techniques that are meant to be both repellent and inviting. Rachael was a 2018 resident of the Hotbox residency in Austin, and was also a recipient of The Clare Hart DeGolyer Memorial Fund artist award in 2019.

Adam Fung - *possible magic*

The work in *possible magic* examines how we navigate trajectory within the Anthropocene's precarious states. Primarily using painting as means to survey the condition of the planet, Adam Fung considers a range of research interests that touch upon issues such as eco-anxiety, climate

change, the history of landscape imagery, and interconnected systems also known as *hyperobjects*.

Intentionally working with oil paint, these slow moving, layered surfaces are a resistance to the slickness, speed, and expectations of the digital world or media we encounter daily. Each work employs a dynamic color palette that speaks to the dichotomy of beauty and destruction in contemporary landscapes. With each encounter we must ask ourselves: what lies over the seen and unseen horizon?

Named in honor of his hometown, Chadra, Lebanon, it offers an exceptional sampling of Mediterranean cuisine, in addition to delicious pastas and pizzas. Chadra Mezza offers two outdoor patios, private event space and full-service catering. Having received numerous awards granted by various entities and publications, Chadra Mezza represents a dining mainstay in the Near Southside. This is hardly surprising. After all, community is, according to the Elbitars, "their main ingredient."

Students, faculty, patients and neighbors all have one thing in common: they're people. And we put the needs of our people first. In addition to being a premier academic medical center, **HSC** believes in the bigger picture of health. Five schools and one shared purpose. Creating an environment where innovation and ideas can thrive, and all people feel informed, empowered and understood.
